-----------------------	--

Travel to Workshop:	£0.30 per mile, but can be negotiated for larger mileage
---------------------	--

All other costs:	Actuals
------------------	---------

Workshop Options

Corrulute workshops are very flexible and can basically work around your requirements, but they typically run in one of four ways:

1. Purchase the kits from us, style/decorate and build the Corrulutes with the children yourselves following our detailed online instructions. We also produce a pdf of the instructions so you can download and print out as many copies as you require from our website. Timescales are flexible as this can be done in one go or as a regular project over a school year/term.
2. As above with the added provision of a workshop where we train you and/or your colleagues to build the Corrulutes in order to maximise the experience with the children (this normally takes a day).
3. We ship the Corrulute bodies a month or so prior to the workshop so that you or your art specialist can work with the children to realise their own individual designs - linked to your art curriculum. We run a two day workshop to build, tune and play the Corrulute.
4. Add on an extra day's workshop per class to option 3 in order for us to lead the design and decorating process with the children.

Notes:

We always offer support and advice on what techniques work best and we will provide some spare sound boxes to allow for any unforeseen mishaps.

Please feel free to contact us if you have any more questions or specific requirements.
