

Evaluation of my **Corrulute**®

Sketches of my final design...

What do you think was the most important thing you learnt during the workshop?

What else have you learnt?

What did you enjoy the most?

A photo of my finished Corrugate.

Look closely at your finished Corrugate; if you were going to make another one would you change anything? Why?

Use the space below using *annotated sketches* to illustrate your design changes:
